S
Peach, Nectarine and Plum Lustr[®] 282 (PNPL)

P
FOR AGRICULTURAL USE ONLY
KEEP OUT OF THE REACH OF CHILDREN

E
CAUTION

HANDLING AND STORAGE PRECAUTION:

C
Wash thoroughly after handling.
Do not get in eyes, on skin or clothing.
Do not breathe dust, vapor, mist or gas.
Store and use with adequate ventilation.
Keep away from heat.
Once opened use the entire contents of container within 15 days.

In case of spill or leak, absorb liquid in vermiculite, sand or any other suitable material. Dispose of according to local regulation.

Net Contents: 55 gallons

DIRECTIONS FOR USE

For Stone fruits: Peach, Nectarine and Plum Lustr[®] 282 can be applied directly or diluted to fruit. Depending on application, e.g. fruit rate, pump and spray type; PNPL[®] 282 can be diluted up to 1+2 with water. Applied by spraying over brushes, one gallon of the concentrate will cover 30,000 to 35,000 lbs of fruit and 1+2 dilution 10,000 to 12,000 lbs. Approved fungicides for Stone fruits can easily be dispersed in PNPL⁷ 282 or diluted coating and applied to fruit. It is important to agitate the mixture during the application. The fungicide - dispersion in the concentrate coating does not require continuous agitation. A five-minute long high-speed agitation will homogenize the dispersion for an eight to ten hour use.

For Cantaloupes: To dilute for use, add one gallon of Peach, Nectarine and Plum Lustr[®] 282 to seven gallons of soft water. Apply through suitable spray

nozzles to cantaloupes on brushes in a waxer. Apply sufficient wax to wet the melons, but do not apply in excess.

For other commodities: For use at any other dilution or on any other commodity, consult Decco service personnel.

COMPOSITION

PRECAUTIONS

The product is non-hazardous and non-toxic. Emulsions should not be subjected to extreme temperature changes. Store wax in a protected area. Do not use on apricots or cherries without first contacting your Decco technical service representative or your local extension agent.

Contents: Peach, Nectarine and Plum Lustr[®] 282 is an emulsion of liquid hydrocarbons in water. All of the ingredients are approved for food use as specified in Title 21, Sections 172-182 of the Code of Federal Regulations.
